CLASS NEWS

We were really fortunate yesterday to see the butterflies in our classroom emerge from their chrysalises. By lunch time, all five butterflies had undergone the metamorphosis. Today the children released the butterflies in the school grounds. The children have been fascinated watching their lifecycle from caterpillar to butterfly and they have keenly observed their development.

In further Science work the children have been investigating how sound is created and how it travels. They have experimented with string and cups to see how far sound could travel and if they could hear other people if their strings crossed.

Have a lovely weekend,

Mrs Nolan

Roll of honour

BLP- Hadia for her super concentration this week and putting up her hand much more frequently and contributing her wonderful ideas in class. Well done.

Learner of the week-

The whole Class for their fabulous concentration and mature attitude to their work. I have been so impressed with all their written work this week writing their own myths, their contributions to conversations in PSHE discussing puberty and fabulous work in Science. Super work Elders!

Topic- Agatha for a fantastic presentation to the class about inspirational people with visual impairments. Agatha is a fabulous speaker. And she held everyone's interest and the whole class found her talk fascinating.

Friendship Award - Luke

Well done to all our Elders this week, we are so very proud of you all.

DATES FOR YOUR DIARY

Friday 16th July

School closes for summer at 1.35pm.
