

EY Resource

Listen to the children who are telling us some of the information they know about their homes and the people they live with. What kind of home do you live in? Who lives in your home with you? Do you know any jobs that the people who live with you do?

I live in a semi-detached house with my mum. My mum has her own business selling candles and lots of different things that smell nice.

I live in a flat with my dad and my grandma. I also have a stepbrother who comes to stay with us at the weekend. My dad works in an office and has lots of paperwork to do. My grandma is retired and looks after our home for us.

I live in a terraced house with my mum, dad, older brother and sister. My brother goes to university, so he only lives with us in the holidays. My dad looks after the house and my mum works as a police officer.

I live in a caravan with my mum, dad and 2 sisters. My mum works on a farm and my dad works in a shop.
