Salvation

Why do Christians call the day Jesus died Good Friday?

Science

- Identify common appliances that run on electricity.
- Construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches, and buzzers.
 - Identify whether a lamp will light in a simple series circuit, based on whether the lamp is part of a complete loop with a battery.
- Recognise that a switch opens and closes a circuit and associate this with whether a lamp lights in a simple series circuit.
 - Recognise some common conductors and insulators, and associate metals with being good conductors.
 - Electricity can be dangerous.
- Electricity sources can be mains or battery.

History - In history our topic is Local History, linked to the impact of the cotton mills on Rawtenstall. We will be using different sources to find out about local artifacts, finding out how people lived over 100 years ago, learning about the impact of the Weavers Cottage and the mills in Rawtenstall, Constable Lee and surrounding areas. We will be comparing how life has changed in Rawtenstall and the impact on the local people now and then.

Geography - To support local history we will be using maps to compare and contrast changes to Rawtenstall and Constable Lee. We will be looking for patterns and similarities in the location of the mills and houses.
