

Parents in Partnership Team Skills Audit

All parents have skills from their life experiences that they can bring to assist the school and its pupils.

It is helpful to let each other know about these skills in order to help us make the best impact on the outcomes for the children and young people at St Paul's.

Aims of the skills audit:

- To identify the skills that parents are willing to share to help improve the appearance and learning environment around school
- To identify any skills gaps, and look at how we can meet these
- To identify and meet the support needs of our volunteers so their work will have the greatest possible impact on our learning environment

We really appreciate the time that you are taking to volunteer for the school.

In order to make best use of the skills and time that you are able to offer, each volunteering opportunity will have its own mini “job description” so you know exactly what to expect. We will also monitor the impact of each “job” so you will know what a difference your contribution makes to the learning environment for our children.

Thank you again for your support.
